

# ICEBREAKER BLUES

## LYRICS BY DON LARSON

I's got to give a speech  
In front of all of you's  
Tell you all about myself  
From words I alone must choose  
My mentor tells me to speak  
Or cry these Icebreaker Blues

I stayed up all night thinking  
Never did even a snooze  
Now my insides are shaking  
From my head to my shoes  
I want to tell you all about it  
Icebreaker Blues
